While a typical fleece leans towards casual wear, choosing a knitted fleece in a neutral colour will make it feel a bit more dressed up.

WE LOVE TO CARE

RECYCLED

We recognize the huge social responsibility we hold as a clothing manufacturer and wholesaler. And we owe it to our planet to do what we can to help foster positive change and promote a greener, more sustainable way of making clothes. This includes rethinking materials and how we use them. We believe that using recycled materials is better for our planet.

Plastic is difficult to get rid of. It is mostly non-biodegradable, and too much of it ends up in our oceans. By using materials made from recyclables we can contribute to the elimination of plastic waste while reducing energy use and the demand for oil. We are proud of our styles made from recycled fabrics, converting unusable plastic and nylon waste into new usable products. These styles are marked with our 'recycled' symbol.
